

Avid Post Deko

Real-time HD or SD graphics production software

Avid PostDeko software is graphics design application that is powerful and flexible enough for broadcast, post, or desktop video production. With PostDeko, graphics artists get all the design power they need to create stunning on-air graphic templates and animations at their desktops, and fast transfer to the online Deko system. When it comes time to create real-time graphics for sports, news, and events, PostDeko is a fast, powerful and cost-effective production workstation. PostDeko can create and save sequences, transitions, and Deko motions too

Note: System requirements subject to change without notice.

Key Benefits

Go-anywhere graphics creation

PostDeko software runs on any Windows XP or Windows 2000 PC or laptop, so station graphics production can go where news, sports, or events happen.

Easy operation

Get to air quickly with the familiar and friendly Avid Deko graphical user interface that is equally powerful for live or automated payout. The training process is fast and ensures a skilled and confident staff.

Format flexibility

Make graphics for any video format, including NTSC, PAL, 4x3, and 16x9, as well as all HDTV standards, 1080i and 720p, or user-definable custom resolutions. Avid PostDeko integrates with any Avid Deko system, and provides titling functionality for Avid production servers and editing systems.

Brand assurance

Avid Deko tools are incorporated into Avid PostDeko to allow visual image and style to be defined once and then used throughout the production and delivery process. Avoid errors and broadcast a consistent visual look.

Complete offline production

PostDeko graphics and effects can be transferred to any model Deko system with the complete confidence that all graphics will air and effects will perform as intended.
